Each time I told the story, I could feel that my blood ran cold. Oh! Please do not make me do this again!

(A) People who are obsessed with Japanese animation will get to see Japan's most famous animation studio holding an exhibition in Taiwan. Studio Ghibli is finally coming this summer!

The exhibition is sure to provide the visitors with special interactive experience that brings to life the characters from the studio's best-loved films—inclusive of *Howl's Moving Castle*, *My Neighbor Totoro*, and *Spirited Away*. Organizers of the exhibition want people to feel as if they have walked right into the movies. Thus, almost everything in the exhibition is life-size, and 23 classic scenes from nine animations are exactly presented in large-scaled 3D.

Unlike most other animation studios that produce computer-generated imagery, Studio Ghibli proudly upholds traditional animation techniques. Visitors are able to see its precious manuscripts at the exhibition. For example, there will be the first-ever display of original script from *The Tale of Princess Kaguya*. The movie is based on an old Japanese folk tale, and is known for its animated film-making approaches: fascinating features with striking hand-drawn aesthetic and frame-by-frame technique.

The studio is famous for its lush animation with incredibly imaginative and original visual virtuosity; furthermore, it doesn't shy away from difficult themes, such as war and environmental protection. For example, *Porco Rosso* tells about a World War I pilot who suffers from guilt after seeing his friend killed in a battle. Film *Pom Poko* depicts how raccoon dogs struggle to prevent their home from being destroyed by urban development.

It is also worth noting that there are no clear-cut portraits of "good guys" and "bad guys"

in the studio's productions. Ghibli's animations manage to convey an idea that evil is natural and is innate in all human beings. In view of this, evil in most Ghibli's works is not defeated but controlled. Heroes end up learning to control evil and live with it instead.

Being one of the most globally acclaimed animation studios, Studio Ghibli exhibition is ready to provide you an enjoyable experience. Please do pay a visit.

(B) To improve your self-control, you should ask yourself what your goal is. Make your answer as specific as possible because your goal is easier to reach in this way. Besides, staying away from temptations is also important. For example, if you want to lose weight, don't leave junk food in your house.

Speaking of food, studies show that following a regular diet helps improve discipline. Improving your discipline means turning a new behavior into a habit, and that can feel uncomfortable at first. Our brains will try to resist and do things the old way. However, this bad feeling won't last forever. Just tell yourself to keep at it and soon your new habit will feel good.

To develop a new good habit, it helps to keep track of your progress. Seeing your own successes is a great reward, and it helps build confidence. There are also some ways to make your task easier and more attractive. Cleaning your desk helps you focus on your studies. Healthy dishes may make losing weight more fun. Lastly, remember to forgive yourself if you do lose self-control sometimes. Just know that you can be a better person if you keep on trying!
